Scooter racing tyres

MC35 S-RACER 2.0

- The new generation of racing tyres
- A successor to the successful MC31 S-RACER tread pattern
- The focus in development was to enhance contact patch in all phases of lean angles
- Tyre construction and shape maximize contact patch at extreme lean angles
- Improved stability and behaviour during cornering owing to the perfected tyre shape providing a more precise steering and faster changes of directions when making turns
- It allows greater lean angles than its forerunner
- Superb braking and acceleration performance
- New compounds are marked with redesigned labels on tyre sidewalls

Very soft compound for qualifications. Suitable also for rainy and cold weather when the riding surface is smooth.

For riding at cold to warm temperatures and on mid rough surfaces.

When the weather is hot and the riding surface rough.

NORM	SUPER SOFT	SOFT	MEDIUM	Size	Expected availability

574252	574280	574285	574293	3.50-10 51P TL	April 2015
574253			574295	100/90-10 56P TL	April 2015

Scooter racing tyres

MC36 MONSUM 2.0

- The new generation of racing rain tyres
- A completely renewed, specific tread pattern design
- Refined tyre shape for superb cornering stability
- Siped tyre edge is designed to deliver a larger contact patch at extreme angles
- The new tyre tread pattern provides excellent water drainage at high speeds
- Optimum groove width ensures a longer service life
- Central grooves provide water drainage on a level road and prevent aquaplaning
- Central grooves pass over to transverse grooves, which evacuate water at lean angles
- The new, rain compound ensures good grip in rainy, cold and bad weather
- Quick tyre warm-up thanks to the new compound

Size	Compound	Expected availability
100/90-12 49P TL	SOFT-for rain	May 2015
120/80-12 55P TL	SOFT-for rain	May 2015
3.50-10 51P TL	SOFT-for rain	May 2015
